Community Service

www.knitloveintoit.com

We offer high school students the opportunity to earn community hours by knitting or crocheting crafts for cancer patients.

Volunteerism not only satisfy high school requirements but also helps students to learn organizational skills and leadership qualities along with the satisfaction of contributing to others.

Volunteering is a commitment. We will provide students with a service hour letter upon a two week request. We will provide 2 copies; a sealed envelope for the school and another for the students personal records.
